I. INTRODUCTION

1. Under Fed. R. Civ. P. 15(a)(1)(B), Plaintiff files this First Amended Complaint. This action is a citizen suit brought under Section 505 of the Clean Water Act ("CWA") as amended, 33 U.S.C. § 1365. Plaintiff Puget Soundkeeper Alliance seeks a declaratory judgment, injunctive relief, the imposition of civil penalties, and the award of costs, including attorneys' and expert witnesses' fees, for defendants Whitley Manufacturing Co., Inc. and Whitley Evergreen, Inc.'s repeated and ongoing violations of Sections 301(a) of the CWA, 33 U.S.C. § 1311(a), specifically, the discharge of pollutants, including stormwater associated with industrial

activity, to navigable waters via point source without authorization by a National Pollutant Discharge Elimination System ("NPDES") permit issued under Section 402, 33 U.S.C. § 1342.

II. JURISDICTION AND VENUE

2. The Court has subject matter jurisdiction under Section 505(a) of the CWA, 33 U.S.C. § 1365(a). The relief requested herein is authorized by 33 U.S.C. §§ 1319(d) and 1365(a).

3. Under Section 505 (b)(1)(A) of the CWA, 33 U.S.C. § 1365(b)(1)(A), Plaintiff notified Defendants of Defendants' violations of the CWA and of Plaintiff's intent to sue under the CWA by letter dated May 23, 2013 and delivered May 28, 2013 ("Notice Letter"). A copy of the Notice Letter is attached to this complaint as Exhibit 1. The allegations in the Notice Letter are incorporated herein by this reference. Plaintiff notified Whitley Evergreen, Inc.'s Registered Agent in Washington, the Administrator of the United States Environmental Protection Agency ("USEPA"), the Administrator of USEPA Region 10, and the Director of the Washington Department of Ecology ("WDOE") of its intent to sue Defendants by mailing copies of the Notice Letter to these officials on May 23, 2013.

4. Whitley Manufacturing Co., Inc. and Whitley Evergreen, Inc. received a copy of the Notice Letter. At least one officer of each defendant received a copy of the Notice Letter and both defendants received actual and timely notice of the allegations contained in the Notice Letter.

5. More than sixty days have passed since the notice letter was served and the violations complained of in the notice letter identified below are continuing or are reasonably likely to continue to occur. Defendants are in violation of the CWA. No agency has commenced any action constituting diligent prosecution to redress these violations.

6. The content of the Notice Letter and the receipt of the Notice Letter by both Defendants met all legal requirements for providing notice before commencing a citizen suit under the Clean Water Act.

7. The source of the violations complained of is located in Snohomish County, Washington, within the Western District of Washington, and venue is therefore appropriate in the Western District of Washington pursuant to Section 505(c)(1) of the CWA, 33 U.S.C. § 1365(c)(1).

III. PARTIES

8. Plaintiff, Puget Soundkeeper Alliance (“Soundkeeper”), is suing on behalf of itself and its member(s). Soundkeeper is a non-profit corporation registered in the State of Washington. Soundkeeper is a membership organization and has at least one member who is injured by Defendants’ violations. Soundkeeper is dedicated to protecting and preserving the environment of Washington State, especially the quality of its waters.

9. Plaintiff has representational standing to bring this action. Soundkeeper's members are reasonably concerned about the effects of discharges of pollutants, including stormwater from Defendants' facility, on aquatic species and wildlife that Plaintiff's members observe, study, and enjoy. Soundkeeper's members are further concerned about the effects of discharges from Defendants' facility on human health. In addition, discharges from Defendants' facility lessen Soundkeeper's members' aesthetic enjoyment of nearby areas. Soundkeeper's members' concerns about the effects of Defendants' discharges are aggravated by Defendants' failure to record and report information about its discharges and pollution controls. The recreational, scientific, economic, aesthetic and/or health interests of Soundkeeper and its

1 member(s) have been, are being, and will be adversely affected by Defendants' violations of the
2 CWA. The relief sought in this lawsuit can redress the injuries to these interests.

3 10. Plaintiff has organizational standing to bring this action. Plaintiff has been
4 actively engaged in a variety of educational, advocacy, and restoration efforts to improve water
5 quality and to address sources of water quality degradation in the waters of western Washington,
6 including the Quilceda Creek watershed, and Puget Sound—immediately downstream of
7 Defendants' facility. Defendants have failed to fulfill monitoring, recordkeeping, reporting and
8 planning requirements, among others, necessary for compliance with an NPDES permit and the
9 CWA. As a result, Plaintiff is deprived of information necessary to properly serve its members
10 by providing information and taking appropriate action. Plaintiff's efforts to educate and
11 advocate for greater environmental protection, and to ensure the success of environmental
12 restoration projects implemented for the benefit of its members are also precluded. Finally,
13 Plaintiff and the public are deprived of information that influences members of the public to
14 become members of Soundkeeper, thereby reducing Soundkeeper's membership numbers. Thus,
15 Plaintiff's organizational interests have been adversely affected by Defendants' violations.
16 These injuries are fairly traceable to Defendants' violations and redressable by the Court.

17 11. Defendant Whitley Evergreen, Inc. is a corporation authorized to conduct
18 business in the State of Washington. Defendant Whitley Manufacturing Co., Inc. is a
19 corporation related to Whitley Evergreen, Inc. and, as of the date of this First Amended
20 Complaint, has the same President, Vice President, Treasurer and Secretary as Whitley
21 Evergreen, Inc.

22 12. Defendants own and/or operate a modular building manufacturing facility located
23 at or about 14219 Smokey Point Blvd., Marysville, WA 98271 (the "facility").

IV. LEGAL & FACTUAL BACKGROUND

13. Section 301(a) of the CWA, 33 U.S.C. § 1311(a), prohibits the discharge of pollutants by any person, unless in compliance with the provisions of the CWA. Section 301(a) prohibits, inter alia, such discharges not authorized by, or in violation of, the terms of a NPDES permit issued pursuant to Section 402 of the CWA, 33 U.S.C. § 1342.

14. The State of Washington has established a federally approved state NPDES program administered by the WDOE. Wash. Rev. Code § 90.48.260; Wash. Admin. Code ch. 173-220. This program was approved by the Administrator of the USEPA pursuant to 33 U.S.C. § 1342(b).

15. Pursuant to Section 402(a) of the CWA, 33 U.S.C. § 1342(a), the WDOE has repeatedly issued the Industrial Stormwater General Permit (the “General Permit”), most recently on October 21, 2009, modified May 16, 2012 (the “2010 Permit”). The General Permit, in its various iterations since its first issuance in 1993 containing comparable requirements, authorizes those that obtain coverage under the General Permit to discharge stormwater associated with industrial activity, a pollutant under the CWA, and other pollutants contained in the stormwater to the waters of the State subject to certain terms and conditions.

16. The General Permit imposes certain terms and conditions on those covered thereby, including monitoring and sampling of discharges, reporting and recordkeeping requirements, as well as restrictions on the quality of stormwater discharges. To reduce and eliminate pollutant concentrations in stormwater discharges, the General Permit requires, among other things, that permittees develop and implement best management practices (“BMPs”) and a Stormwater Pollution Prevention Plan (“SWPPP”), and apply all known and reasonable methods of prevention, control, and treatment to discharges.

1 17. Defendants' facility is engaged in industrial activities, including manufacturing
2 pre-fabricated wood buildings, sections and panels, manufacturing pre-fabricated metal buildings
3 and components, fabrication of metal for structural purposes, manufacturing of metal frames, and
4 related support activities.

5 18. Defendants' facility discharges stormwater and other pollutants via point source,
6 including ditches, other stormwater facilities and channels, and the facility itself, and via
7 unnamed tributaries to Quilceda Creek, which flows to Puget Sound. All of these waters are
8 "navigable waters" under the Clean Water Act.
9

10 19. Defendants have not monitored or sampled discharges of stormwater and other
11 pollutants from their facility and reported the results to WDOE.
12

13 20. Defendants have not developed and implemented BMPs and a SWPPP, nor
14 applied all known and reasonable methods of prevention, control, and treatment to discharges
15 from its facility.
16

17 21. Defendants have not implemented BMPs which are consistent with the
18 Stormwater Management Manual for Western Washington (2005 edition) ("SWMMWW"), nor
19 have Defendants implemented BMPs which are supported by documentation in a facility SWPPP
20 that they are demonstratively equivalent to those BMPs described in the SWMMWW, including
21 proper selection, implementation and maintenance.
22

23 22. Defendants have not implemented BMPs identified by 2010 Permit condition
24 S3.B.4.b as mandatory BMPs.

25 23. Defendants have not implemented preventative maintenance BMPs to maintain
26 Defendants' stormwater drainage systems, including a schedule or frequency for each
27 maintenance task; nor have Defendants prepared a SWPPP which includes those BMPs.
28

1 24. Defendants have not prepared and have not implemented a spill prevention and
2 emergency clean-up plan for the facility.

3 25. Defendants have not conducted employee training consistent with the
4 requirements of 2010 Permit condition S3.B.4.b.i.5; nor have Defendants prepared a SWPPP
5 which includes BMPs for such employee training. Further, Defendants have not maintained an
6 employee training log.
7

8 26. Defendants have not conducted facility inspections or maintained recordkeeping
9 practices as required by 2010 Permit condition S3.B.4.b.i.6; nor have Defendants prepared a
10 SWPPP which includes BMPs for such facility inspections and recordkeeping.
11

12 27. Defendants have not undertaken adequate measures to identify and eliminate the
13 discharge of process wastewater from the facility; nor have Defendants prepared a SWPPP
14 which includes BMPs to identify and eliminate the discharge of process wastewater from the
15 facility.
16

17 28. Defendants have not located industrial materials and activities inside and have not
18 protected those materials and activities from contact with stormwater and runoff with storm
19 resistant coverings; nor have Defendants prepared a SWPPP which provides BMPs to minimize
20 the exposure of industrial materials and activities to stormwater and runoff.
21

22 29. Discharges from Defendants' facility contribute to the polluted conditions of
23 navigable waters, including Quilceda Creek and Puget Sound. Quilceda Creek is listed on
24 WDOE's 303(d) list of waterbodies impaired by low dissolved oxygen. Discharges from
25 Defendants' facility contribute to the ecological impacts that result from the polluted state of
26 these waters, and to Plaintiff's and its members' injuries resulting therefrom.
27
28

1 30. The vicinity of the facility and the receiving waters are used by the citizens of
2 Washington and visitors, as well as at least one of Plaintiff's members, for recreational activities,
3 including boating, biking, fishing, and bird watching, and educational and scientific activities,
4 including environmental restoration monitoring. Plaintiff's member(s) also derive(s) aesthetic
5 benefits from the receiving waters. Plaintiff's and its members' enjoyment of these activities and
6 waters is diminished by the polluted state of the receiving waters and by Defendants'
7 contributions to such polluted state.
8

9 31. A significant penalty should be imposed against Defendants pursuant to the
10 penalty factors set forth in 33 U.S.C. § 1319(d).
11

12 32. Defendants have benefited economically as a consequence of their violations.

13 33. Defendants' violations were avoidable had Defendants been diligent in overseeing
14 facility operations and maintenance.

15 34. Defendants are profitable business enterprises. Given their size and resources,
16 Defendants can afford to pay a significant penalty and such penalty is required to meet the
17 deterrence goals of the Clean Water Act's penalty factors.
18

19 **V. CAUSE OF ACTION**

20 35. The preceding paragraphs and the allegations in the Notice Letter, attached hereto
21 as Exhibit 1, are incorporated herein.
22

23 36. Defendants' violations described herein and in the Notice Letter, constitute
24 violations of Section 301 of the Clean Water Act, 33 U.S.C. § 1311, and violations of "effluent
25 standard(s) or limitation(s)" as defined by Section 505, 33 U.S.C. § 1365.
26

27 37. On information and belief, the violations committed by Defendants are ongoing or
28 are reasonably likely to continue to occur. Any and all additional violations of the CWA which
29

1 occur after those described in Plaintiff's Notice Letter but before a final decision in this action
2 should be considered continuing violations subject to this Complaint.

3 38. Without the imposition of appropriate civil penalties and the issuance of an
4 injunction, Defendants are likely to continue to violate the CWA to the further injury of Plaintiff,
5 its member(s) and others.
6

7 39. A copy of this First Amended Complaint is being served upon the Attorney
8 General of the United States and the Administrator of the USEPA as required by 33 U.S.C. §
9 1365(c)(3).
10

11 VI. RELIEF REQUESTED

12 Wherefore, Plaintiff respectfully requests that this Court grant the following relief:

13 A. Issue a declaratory judgment that Defendants have violated and continue to be in
14 violation of Section 301 of the Clean Water Act, 33 U.S.C. § 1311;
15

16 B. Enjoin Defendants from operating their facility in a manner that results in further
17 violations of the Clean Water Act;

18 C. Order Defendants to immediately implement a Storm Water Pollution Prevention
19 Plan that is in compliance with the General Permit, and to provide Plaintiff with a copy of this
20 Plan;
21

22 D. Order Defendants to allow Plaintiff to participate in the development and
23 implementation of Defendants' Storm Water Pollution Prevention Plan;

24 E. Order Defendants to provide Plaintiff, for a period beginning on the date of the
25 Court's Order and running for three years after Defendants achieve compliance with the CWA,
26 with copies of all reports and other documents which Defendants submit to the USEPA or to the
27
28

WDOE regarding Defendants' coverage under any NPDES permit at the time it is submitted to these authorities;

F. Order Defendants to take specific actions to remediate the environmental harm caused by their violations;

G. Order Defendants to pay civil penalties of \$37,500.00 per day of violation for each violation committed by Defendants pursuant to Sections 309(d) and 505(a) of the CWA, 33 U.S.C. §§ 1319(d) and 1365(a), and 40 C.F.R. § 19;

H. Award Plaintiff their litigation expenses, including reasonable attorneys' and expert witness fees, as authorized by Section 505(d) of the CWA, 33 U.S.C. § 1365(d); and

I. Award such other relief as this Court deems appropriate.

RESPECTFULLY SUBMITTED this 4th day of November, 2013.

Managing Agent

Whitley Manufacturing Co., Inc., d.b.a. Whitley Evergreen

14219 Smokey Point Blvd

Marysville, WA 98271

Re: NOTICE OF INTENT TO SUE UNDER THE CLEAN WATER ACT

Dear Managing Agent:

We represent Puget Soundkeeper Alliance ("Soundkeeper"), 5305 Shilshole Ave. NW, Suite 150, Seattle, WA 98107, (206) 297-7002. Any response or correspondence related to this matter should be directed to us at the letterhead address. This letter is to provide you with sixty days notice of Soundkeeper's intent to file a citizen suit against Whitley Manufacturing Co., Inc., d.b.a. Whitley Evergreen ("Whitley") under section 505 of the Clean Water Act ("CWA"), 33 USC § 1365, for the violations described below.

I. Unpermitted Discharges

The CWA, 33 U.S.C. §§ 1311 and 1342, prohibits the discharge of pollutants, including stormwater associated with industrial activity, to waters of the United States, except as authorized by a National Pollutant Discharge Elimination System ("NPDES") permit. Whitley has violated and continues to violate Section 301(a) of the CWA, 33 U.S.C. § 1311(a), by discharging pollutants from its modular and mobile structure manufacturing facility located at or about 14219 Smokey Point Blvd., Marysville, WA 98271 (the "facility" or "site") to waters of the United States without a NPDES permit. The facility subject to this notice includes any contiguous or adjacent properties owned or operated by Whitley.

Whitley discharges industrial stormwater and pollutants to Quilceda Creek via unnamed tributaries and/or ditches and/or a municipal stormwater drainage system. On information and belief these pollutants include turbidity, suspended and dissolved solids, oxygen demanding substances, non-neutral pH, hydrocarbons, and metals, including copper and zinc. These violations of the CWA have occurred on each day from May 23, 2008, through the present during which there was a stormwater discharge from the facility, generally including days on which there has been at least 0.1 inch of precipitation, and continue to occur. Precipitation data from Paine Field Airport, Snohomish County (PAE) identifying such days is appended to this notice of intent to sue. The violations alleged in this notice of intent to sue will continue until Whitley obtains and comes into compliance with a NPDES permit authorizing such discharges.

II. Industrial Stormwater General Permit requirements

The Washington Department of Ecology ("Ecology") authorizes discharges of stormwater associated with certain industrial activities under the Industrial Stormwater General Permit, including the manufacturing of pre-fabricated wood buildings, sections, and panels (SIC Code 2452), the manufacturing of prefabricated metal buildings and components (SIC Code 3448), the fabrication of metal for structural purposes (SIC Code 3441), and the manufacturing of metal frames (SIC Code 3442), all of which Whitley conducts at the site. The current Industrial Stormwater General Permit ("2010 Permit") was issued by Ecology on October 21, 2009, with an effective date of January 1, 2010, and modified May 16, 2012, effective July 1, 2012. The previous Industrial Stormwater General Permit issued by Ecology on August 21, 2002, effective on September 20, 2002, modified on December 1, 2004, effective January 14, 2005, expiring September 20, 2007, reissued August 15, 2007, effective September 15, 2007, reissued again on October 15, 2008, effective November 15, 2008, expiring April 30, 2009, but remaining effective through December 31, 2009 ("2005 Permit"). The 2010 Permit includes conditions substantially similar to those of the 2005 Permit.

Should Whitley have or obtain 2010 Permit coverage for the facility, compliance with the 2010 Permit requires Whitley to correct the deficiencies identified below. Soundkeeper hereby provides notice of its intent to sue for these violations of the 2010 Permit.

1. Compliance with standards.

Condition S10.C. of the 2010 Permit requires permittees to apply all known and reasonable methods of prevention, control and treatment ("AKART") to all discharges, including preparation and implementation of an adequate stormwater pollution prevention plan ("SWPPP") and best management practices ("BMPs"). On information and belief, Whitley has not applied AKART to its discharges or implemented adequate BMPs at the facility, including structural source control BMPs to minimize the exposure of pollutants to precipitation, and stormwater treatment BMPs to remove pollutants prior to discharge.

2. Stormwater Pollution Prevention Plan

Condition S3.A.1. of the 2010 Permit requires permittees to develop and implement a SWPPP as specified. S3.A.2. specifies that the SWPPP must indicate the BMPs necessary to provide AKART and ensure that discharges do not cause or contribute to violations of water quality standards. On information and belief, Whitley has not prepared and implemented a SWPPP that specifies AKART and ensures discharges do not cause or contribute to violations of water quality standards.

Condition S3.A.3.a. of the 2010 Permit requires that BMPs in a permittee's SWPPP be consistent with the Stormwater Management Manual for Western Washington (2005 edition) ("SWMMWW"), which is available on the internet at <http://www.ecy.wa.gov/programs/wq/stormwater/manual.html>. Alternatively, the SWPPP must include documentation that the BMPs included therein are demonstratively equivalent to those described in the SWMMWW, including proper selection, implementation and maintenance.

On information and belief, Whitley has not prepared and is not implementing a SWPPP that is consistent with this manual or that is demonstratively equivalent thereto, including the housekeeping and other operational BMPs, the structural source control BMPs, and the stormwater treatment BMPs identified in the SWMMWW.

Condition S3.B.4.b. of the 2010 Permit identifies mandatory BMPs that must be included in the SWPPP and implemented, unless the permittee clearly justifies why each omitted mandatory BMP is unnecessary, infeasible, or replaced by alternative and equally effective BMPs. On information and belief, Whitley is not implementing several BMPs identified in the 2010 Permit, including preventive maintenance BMPs to maintain the stormwater drainage systems, including a schedule or frequency for each maintenance task (S3.B.4.b.3.), having a spill prevention and emergency cleanup plan (S3.B.4.b.i.4.), provisions for employee training, including a training log (S3.B.4.b.i.5.), provisions for facility inspections, regular compliance certification, and recordkeeping (S3.B.4.b.i.6.), adequate measures to identify and eliminate the discharge of process wastewater (S3.B.4.b.i.7.), the “applicable” BMPs from the SWMMWW (S3.B.4.b.ii.1.), and location of industrial materials and activities inside or protecting them with storm resistant coverings (S3.B.4.b.ii.2.).

3. Monitoring

Condition S4.B.2. of the 2010 Permit requires permittees to sample quarterly each distinct point of discharge off-site except as otherwise exempt from monitoring as a “substantially identical outfall” per Condition S3.B.5.b. Condition S4.B.3. of the 2010 Permit requires permittees to record and retain specified information about each stormwater sample taken, including a notation describing if they collected the sample within the first 12 hours of stormwater discharge events and, if not, an explanation why not. Condition S4.A. and B. of the 2010 Permit require permittees to collect stormwater samples no less than once per quarter. Condition S4. of the 2005 Permit included a substantially similar sample collection requirement. Condition S9.A. of the 2010 Permit requires permittees to report results of analysis of these samples to Ecology on specified forms (Discharge Monitoring Reports, or “DMRs”) on a specified schedule. Condition S5.A. of the 2005 Permit included a substantially similar requirement. Whitley has not collected stormwater discharge samples and/or reported the results to Ecology on DMRs.

III. Conclusion

The above-described violations reflect those indicated by the information currently available to Soundkeeper. These violations are ongoing. Soundkeeper intends to sue for all violations, including those yet to be uncovered and those committed after the date of this notice of intent to sue.

Under Section 309(d) of the CWA, 33 USC § 1319(d), each of the above-described violations subjects the violator to a penalty of up to \$32,500 per day for each violation before and through January 12, 2009 and up to \$37,500 per day for each violation thereafter. In addition to civil penalties, Soundkeeper will seek injunctive relief to prevent further violations under Sections 505(a) and (d) of the CWA, 33 USC § 1365(a) and (d), and such other relief as

is permitted by law. Section 505(d) of the CWA, 33 USC § 1365(d), also permits prevailing parties to recover costs, including attorney's fees.

Soundkeeper believes that this NOTICE OF INTENT TO SUE sufficiently states grounds for filing suit. We intend, at the close of the 60-day notice period, or shortly thereafter, to file a citizen suit against Whitley under Section 505(a) of the Clean Water Act for violations. During the 60-day notice period, we would be willing to discuss effective remedies for the violations addressed in this letter and settlement terms, however; we do not intend to delay the filing of a complaint if discussions are continuing when the notice period ends. To initiate those discussions you may contact us by phone or mail (see letterhead), or by e-mail at marcz@igc.org.

Sincerely,

SMITH & LOWNEY, PLLC
